African Corporate Cleaning (Constantia Park)

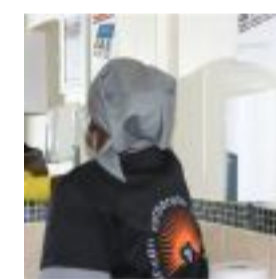

AFRICAN CORPORATE CLEANING was established in February 2006 with one client and 20 cleaners and has since grown into a strong operation with over 550 cleaners and more than 50 clients. The company's footprint spans the whole of Gauteng including the surrounding areas, with its Head Office in Pretoria. The company is extremely successful in the cleaning industry with the cleaning of vehicles at various dealership groups, the healthcare industry, offices, manufacturing businesses and banking clients.

AFRICAN CORPORATE CLEANING has the highest possible BEE contributor level, namely Level 1 (AAA+) and is also involved in enterprise development and has also set-up a successful separate black owned business under their guidance.

This company strives to be "first-to-mind" cleaning solutions provider to businesses, embassies, departments and parastatals in Gauteng and the surrounding areas.

AFRICAN CORPORATE CLEANING was recently awarded a Certificate of Compliance by the National Contract Cleaners Association, conforming the company as one of only six South African companies to receive this endorsement.

Leading by example is a true differentiating factor and it is this attitude that makes AFRICAN CORPORATE CLEANING a winner.
