

WELCOME TO AFRISO

[HOME](#) →

AFRISO is an innovative, medium-sized company with a total staff of more than 1000 worldwide. Traditionally, we manufacture measuring, control and monitoring devices for building technology, industry and environmental protection.

AFRISO, founded by Adalbert Fritz in Schmiedefeld/Thuringia, Germany in 1869, is an innovative, medium-sized company with a total staff of more than 1000 worldwide, more than 550 of which are employed at the five German sites. Traditionally, we manufacture measuring and control devices for temperature and pressure. For more than 50 years now, we have also been producing measuring, control and monitoring devices and systems for environmental protection:

- Pressure. Temperature. Level.
- Tank. Heating. Water Technology.
- Portable and Stationary Gas analysis
- Technology for environmental protection
- Special designs and system solutions

Our leading-edge, market-oriented products and innovations result from our comprehensive know-how, a highly motivated and qualified staff and the fact that we understand what the market needs. Our full-coverage product range for one-stop shopping extends from proven, cost-effective off-the-shelf products to complex, customised special solutions.

- Research and development
- Tool manufacturing and fixture construction
- Versatile and highly effective production
- Quality assurance according to ISO 9001
- DNV certification

... all this turns AFRISO products into brand articles.
