Agitators & Mixers

FeCon in partnership with Afromix offer the best in design and manufacturing of specialised mixing technologies.

Afromix - A Global leader in agitator and mixing technologies with a reputation for delivering robust solutions with over 33 years expertise globally.

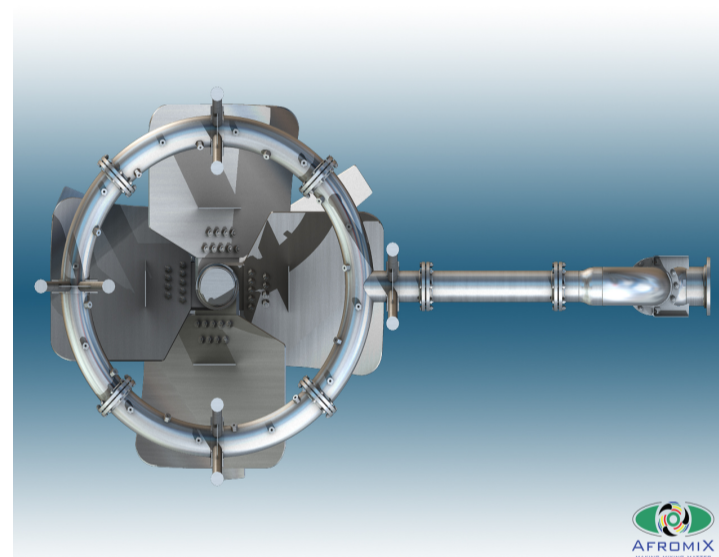

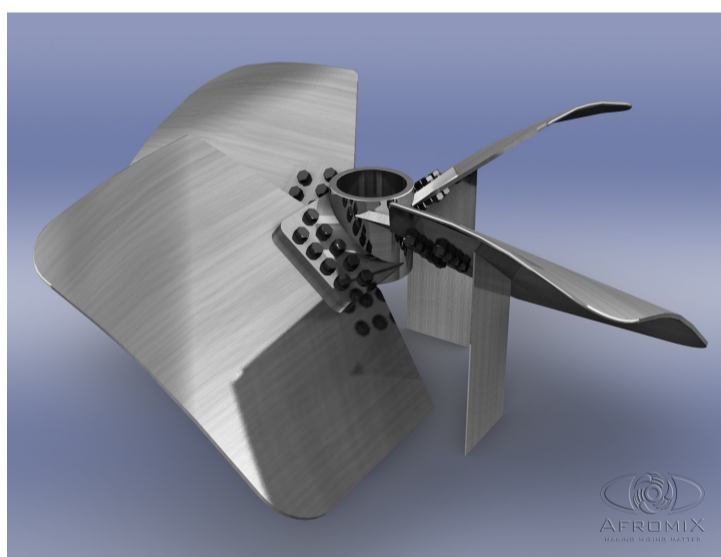

Afromix has supplied some of the largest agitators in Africa, also pioneering the use of Draft Tube circulators in mining, and axial flow gas dispersers for high rate mass transfer.

Together we have extensive experience in the following industries:

- Leach and CIP
- Biological leaching of Gold, Copper and Nickel
- Chemical production
- Paper production
- Water and waste treatment
- Pharmaceutical production

Using in-house FEA (Finite element analysis), 3D drawings and animations, engineering and process design, Afromix has raised mixing technology and innovation to a new level.

FeCon and Afromix have agitators and mixers for every application including:

- Agitators for gas dispersion and reactors (CIL, CIP, Crude oil storage, Pulp Mixing)
- Bio-oxidation processes (BIOX® and BioCOP®)
- Fermentation and hydrogenation
- Iron removal
- Autoclaves and high pressure units
- Large top entry agitators
- Pedestal mount units
- Entry agitators and small top mount entry agitators and portable units
