

for the farmer AgriCAD *vir die boer*

TF330 / TF240 / TF160 / TF110

The AgriCAD chaser bin range offers the farmer an affordable, reliable and professionally engineered solution for bulk in-field grain handling. Specifically developed for the African Grain Farmer our chaser bins offer the following practical advantages:

- Modular design that makes welded assemblies replaceable.
- $\pm 5$  ton per min discharge rate. (6 ton/min. on TF330, 2 ton/min. on TF110)
- Wide floatation tyres with Henred axle used respectably.
- 3m wide bins for easy in-field grain intake.
- 4.1m high ejecting auger.
- Remote hydraulic bottom dump from tractor standard on all models.
- Henred axles on both models.
- Light box, tarp and flood light standard on all models.
- TF110 - 11000 litre, +/- 9 tons.
- TF160 - 16000 litre,  $\pm 12.8$  tons.
- TF240 - 24000 litre,  $\pm 17.6$  tons.
- TF330 - 33 000 litre,  $\pm 26.5$  tons.
