

AINSWORTH ENGINEERING (PTY) LTD

AINSWORTH Engineering (Pty) Ltd

Valve Manufacturers, Suppliers And Reconditioners, Export and Import.

There is probably not a single river of any importance in South Africa whose waters do not, at some point or another, flow through an Ainsworth valve. On the mines, in water supply, water reticulation and irrigation schemes, power stations and industries throughout the country, valves supplied by Ainsworth Engineering (Pty) Ltd help to regulate the flow not only of water which is so essential to all, but also of a variety of other fluids.

Many of Ainsworth's original water valves, manufactured back in the 1940's are still in use today. These traditions of quality and reliability, combined with extensive experience in design and production, have made Ainsworth a leading manufacturer of water valves in Africa.

Ainsworth manufactures and suppliers offer an extensive range of water valves including resilient seal gate, hydrant, butterfly, gate, reflux, ring needle, sleeve-type dispersion and ball valves. Ainsworth is an ISO 9001 listed company and where applicable, its valves bear the SABS mark.

AINSWORTH Services

- Product Selection
- Product Design
- Maintenance on existing products
- Repairs on existing installations - this includes all third party products as well.

AINSWORTH Products

- AINSWORTH High Pressure Valves
- AINSWORTH High Pressure Reflux Valve
- AINSWORTH High Pressure Parallel Slide Gate Valve
- Ainsworth High Pressure Wedge Gate Valve

AINSWORTH-AIV Medium-High Pressure Valves

- AINSWORTH-AIV Cast Steel Single Door Reflux Valve
- AINSWORTH-AIV Cast Steel Gate Valve Non-Rising Spindle
- AINSWORTH-AIV Cast Steel Gate Valve Rising Spindle

AINSWORTH Regulators

- AINSWORTH High Pressure Regulator Model 80
- AINSWORTH High Pressure Regulator Model 81 - Low / Medium Pressure
- AINSWORTH Pressure Reducing Regulator Model 80 / 829s and 81 / 829s
- AINSWORTH Surge Relief / Back Pressure Regulator Model 80 / 888 and 81 / 888
- AINSWORTH Dual Stage Pressure Reducing Regulator Combination (In-line) with Model 80 Regulators

AINSWORTH RSV

- AINSWORTH Resilient Seal Gate Valve, Double Flanged, Waterworks purposes, Non-Rising Spindle, Class 10 & 16
- AINSWORTH Resilient Seal Gate Valve, Double Flanged, Waterworks purposes, Non-Rising Spindle, Class 25
- AINSWORTH Resilient Seal Gate Valve, Double Flanged, Waterworks Purposes, Rising Spindle, Class 10 & 16
- AINSWORTH Resilient Seal Gate Valve, Double Flanged, Waterworks purposes, Rising Spindle, Class 25
- AINSWORTH Resilient Seal Gate Valve, Double Socketed, Waterworks purposes, Non-Rising Spindle, Class 16
- AINSWORTH Resilient Seal Gate Valve, Double Spigotted, Waterworks Purposes, Non-Rising Spindle, Class 10 & 16
- AINSWORTH Resilient Seal Gate Valve, Double Flanged, General Purposes, Non-Rising Spindle, Class 10 & 16
- AINSWORTH Resilient Seal Gate Valve, Double Flanged, General Purposes, Rising Spindle, Class 10 & 16
- AINSWORTH Resilient Seal Gate Valve, Double Shouldered, General Purposes, Rising Spindle, Class 16 & 25
- AINSWORTH Resilient Seal Slurry Gate Valve, Flanged End, Slurry Purposes, Rising Spindle

AINSWORTH Other Products

- AINSWORTH Fabricated Cone Strainers
- AINSWORTH Fire Hydrant
- AINSWORTH Flanged Butterfly Valve
- AINSWORTH Tilting Disc Reflux Valve
- AINSWORTH Wafer Type Butterfly Valve
