AgriCAD

Chaserbin Range

The AgriCAD chaser bin range offers the farmer an affordable, reliable and professionally engineered solution for bulk in-field grain handling. Specifically developed for the African Grain Farmer, our chaser bins offer the following practical advantages:

- ◆ Modular design that makes welded assemblies replaceable
- ◆ TF160 – 16 000 L \pm 13 tons
- ◆ TF240 – 24 000 L \pm 20 tons
- ◆ Wide floatation tyres used for low compaction
- ◆ 3 m wide bins for easy in-field grain intake
- ◆ 4.2 m high ejecting auger
- ◆ Remote hydraulic bottom dump from tractor standard on all models
- ◆ \pm 5 ton per min discharge rate
- ◆ Henred axles on both models
- ◆ Light box, tarpaulin and flood light standard on all models
