PRODUCT INFORMATION

Air-o-net is a unique netting packaging medium. It is a soft, light weight foam which offers a hygienic, odourless protection, whilst enhancing the appearance of any fruit. Air-o-net provides extended life for your fruit preventing bruising or damage whilst in transport or on shelves.

Air-o-net provides protection for various applications such as fruit, bottles, delicate glassware or any cylinder shaped valuables nested in its care. Air-o-net can also be used for the protection of furniture in transit such as table legs.

Air-o-net has the following features:-

- Hygienic (FDA food grade approved)
- Available in tube or round
- One size fits all (Expandable)
- Cost effective
- Internationally recognised
- Excellent resistance to water absorption.
