About Us

Abbott Machine Moving and Rigging (PTY) Ltd was established in 1984 and has grown over the past three decades to become the leading force in Southern Africa's Rigging, Machine Moving and Specialised Transport Industry.

[more...](#)

Lowbed Services

Abbotts modern lowbed fleet offers fixed neck, folding neck and hydraulic removeable neck air suspension. All our lowbeds are built with running decks between 6m and 12m providing loading ranges upto 100 ton.

[more...](#)

Warehousing

Abbotts warehousing facility is ideally situated central to all major highways and container depots.

We offer container packing and unpacking facilities on our premises with a full crating and palletising service available. All goods packed and unpacked are handled by experienced rigging and packing teams within our fully equipped warehouse.

[more...](#)

All Terrain Fleet

Abbotts all terrain fleet is composed of the most modern all terrain vehicles in South Africa, fitted with 20 ton metre cab mounted cranes. These vehicles have completed many projects throughout Southern Africa.

[more...](#)

Machine Moving

Abbott offers excellent service in both the rigging and handling of heavy, complex industrial machinery and sensitive computer equipment. All rigging and moving of machinery is carried out according to machinery manufacturers specification.
